Greetings

The Hatboro Chamber of Commerce is pleased to offer you this 1952 directory.

Although others have preceeded it, this is the first one published under the sponsorship of our organization, and the nature of its content has been changed somewhat from those of other years.

The material contained herein has been condensed, and compiled in a manner which we believe will make the data you need about your community more readily available. We have tried to present the information about your local and county governments, school districts, municipal services, civic organizations, religious groups, etc., in an unadorned, factual way.

There has been necessary a time lag between the gathering of the data and the distribution of the directory, so that while every effort has been made to avoid error and to bring it up-to-date as possible, perfection is unattainable.

The Chamber of Commerce appreciates greatly the support of all those who made this directory possible, and calls attention of its readers especially to the business announcements appearing on its pages.

We would like to emphasize that the 1952 Hatboro Directory is just one more bit of concrete evidence that the Chamber of Commerce is dedicated to serving this community and its people.

AL WILSON,
President

Your neighbor for the past ten years, Fischer & Porter Company has grown tremendously and is still spreading. Manufacturers of industrial process control instruments, the company now has branch offices all over the world. In addition, subsidiary factories are now operating in Canada, England, Australia and The Netherlands.

*FLOWRATOR meters, well-known in every field, are used by scientists, engineers and technicians to measure and control flow rate, temperature, pressure, viscosity, specific gravity, liquid level and other process variables.
